# **Wall Mount TV, HDTV Installation, Plasma LCD TV, Home Theater Recessed Pro-Power Kit Installation**

Use our easy-to-install Recessed Pro-Power Installation Kit to install power and hide unwanted audio/video (hdmi, component video, etc) cables in the wall behind your wall mount tv, lcd, hdtv, or plasma flat panel TV. This kit brings a clean, professional image to your at-home lcd, hdtv, or plasma flat panel tv installation.

Since this kit does not connect to your homes existing wiring, there is no contact with live electrical circuits. To install, connect the two Recessed Cable Plates using electrical wire. Plug the female end of the extension cord into the Recessed Cable Plate with Straight Blade Inlet and the male end into a surge protector or power outlet. This connection will bring power to your hdtv, lcd, or plasma TV or A/V equipment. The Recessed Pro-Power Kit comes with simple instructions for a quick and easy flat panel, lcd, hdtv, home theater or plasma tv installation.
